## Project description

Your answers to the following questions will help the jury to get a better understanding of your project. Please be specific and offer correct information.

### Shortly describe your project/idea/concept

**What is the context of the project, which issues are addressed? Which problems is the project trying to solve?**

**How will the solution or improvements be achieved? Which measures have been implemented or are planned?**

**What is the outcome so far? Which (quantifiable) results could be achieved? Who benefits from the project?**

What is new and innovative about the project? Why would it deserve to win the VCÖ mobility award?

In which ways does the project contribute to an environmentally sustainable transportation system? (e.g. climate, greenhouse gas emissions, consumption of resources, fossil fuels, and space, energy efficiency, etc.) This question is optional but will help evaluate the significance of your project.

In which ways does the project contribute to quality of life? Does it create an added social value? (e.g. health, active mobility, safety, social inclusion, affordable and accessible modes of transportation, traffic reduction, etc.) This question is optional but will help evaluate the significance of your project.

What is the scope of your project (e.g. company level, municipality level)? Could it potentially be implemented in another place or context?
